### SUMMARY

I am a proficient Frontend Developer with a strong focus on building user-friendly, responsive, and high-performance web applications. Passionate about crafting clean, efficient, and scalable interfaces, I thrive on transforming complex problems into elegant solutions. With a solid foundation in modern HTML, CSS, and JavaScript, and hands-on experience with frameworks like React and libraries like Tailwind CSS, I ensure every project is optimized for seamless user interaction across all devices. I'm committed to staying ahead of the curve by keeping up with the latest trends, tools and best practices in frontend development.

### EXPERIENCE

#### Flexisaf, Abuja, Nigeria (Remote)

##### Frontend Developer Intern

March 2025 - June 2025

- Independently executed UI/UX designs into actual codes using HTML, Tailwind, JavaScript, and React resulting in 35% improvement in user engagement.
- Delivered clean, efficient UI designs that cut user reported interface issues by 40% and improve first time user task completion by 30%
- Played a critical role in crafting web app frontends for seamless user interaction.
- Partnered closely with designers and backend team to deliver cohesive experience, decreasing feature hand-off delays by 27% and improving team satisfaction score by 14%.

#### HNG Internship (Remote)

##### Frontend Developer Intern

February 2025

- Implemented six new user-facing features utilizing technologies such as React, Redux, Tailwind, and Sass, enhancing website functionality and user experience.
- Conducted regular maintenance and enhancements on websites, ensuring optimal performance and usability.
- Contributed to a mini project and collaborated with cross-functional teams, including UI/UX designers and backend developers, on the Citrone redesign fostering teamwork and innovation.
- Implemented responsive layout for mobile, tablets and desktop.

#### GoMyCode, Lagos, Nigeria

##### Frontend Developer Intern

October 2024 - December 2024

- Transformed UI/UX designs into dynamic code using Next.js, Tailwind CSS, Typescript, and Shadcn UI, accelerating design to development handoff by 45% and boosting consistency across screen size by 27%.
- Led the optimization of frontend performance, using best practices to enhance page loading time reducing average page loading time by 35%.
- Collaborated with full-stack developers, specializing in frontend development, database management, and testing workflows which decreased cross-team bug spillover by 22%.

- Authored clean, reusable and well documented code, cutting code review feedback cycle by 27%.

### EDUCATION

#### Federal University Oye- Ekiti, Ekiti State

- B.Sc in Political Science

September 2018 - July 2023

### TECH STACK

HTML, CSS, Tailwind CSS, JavaScript, Typescript, React, Next, Jest, Bootstrap, Appwrite, PHP, Kotlin

### TOOLS

Figma, Vscode, Git, Github, Zoho, Microsoft Team, Android Studio
